MADE IN SWEDEN

MADELEIN SLATER, FOUNDER OF AQUAVIREO

For more than fifteen years, we have lived by one simple idea. Creating high quality and beautiful linen items with no harm to nature. Our philosophy is simple. We create decorative textiles for every angle of your life. Most products are made of linen but we also work with other natural materials like wool, silk and cotton. A sense of beauty in textures, in the simplicity and in colours.

Oeko Tex 100

TEXTURES

With the STANDARD 100 label you can be certain that every component, i.e. every thread, button and other accessories, has been tested for harmful substances and therefore is harmless in human ecological terms.

MAINTAINING QUALITY

IN EVERYTHING WE DO

A feeling for linen. Nearly all of AquaVireo's products are made of linen. This beautiful, and environmental friendly textile is both durable and with a high tensile strength. The linen fiber has a smooth surface which makes the fiber soil-repellent as well as a high in luster. Linen is grown in relatively cold countries, therefore the risk of pests is limited and the farms in less need of spraying.
